8/12/04	R02-01-011	Order Instituting Rulemaking regarding the implementation of the suspension of direct access pursuant to Assembly Bill 1X and Decision 01-09-060.
---------	------------	---

Summary: On August 12, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Roosevelt Grant, advisor to Cmmr. Peevey, in San Francisco. Also present was David Rubin, Director, Service Analysis, PG&E. Eisenman asserted that the cost responsibility

surcharge should be applied to new load located within PG&E's service territory but taking service from publicly owned utilities. Rubin stated that the Department of Water Resources (DWR) testified in this proceeding that when DWR procured power on behalf of all customers in PG&E's service territory, that it did not adjust PG&E's forecast for publicly-owned utilities reaching into PG&E's territory to serve new load. Rubin explained that this means power procurement costs were incurred on behalf of new load locating within PG&E's service territory by DWR, and that exempting new load from its fair share would burden all other customers with the associated costs. Rubin noted that PG&E has an obligation to serve every new customer locating within its service territory and that some publicly owned utilities behave like a commercial entity and 'cherry-pick' individual customers.

8/12/04 A01-10-011 Pacific Gas and Electric Company, Proposing a Market Structure and Rules for the Northern California Natural Gas Industry for the Period Beginning January 1, 2003 as Required by Commission Decision 01-09-016.

Summary: On August 9, 2004, Eric Eisenman, Chief, Regulatory Relations, Pacific Gas and Electric Company (PG&E), met with Roosevelt Grant, advisor to Cmmr. Peevey, in San Francisco. Also present were Belinda Gatti, advisor to Cmmr. Brown, and Ben Campbell, Manager, Product Management, PG&E. Written material (attached to the notice) was used. Eisenman explained how the Gas Accord changed the ratemaking treatment of Line 401, and that this facility became an indistinguishable part of the Redwood path. Campbell stated that PG&E does not receive a reasonable opportunity to recover its cost of service until the forecast throughput on all backbone facilities, not just Line 401, reaches 95%. Campbell added that PG&E has no incentive to expand its gas transmission facilities as long as the 95% load factor adjustment is applied in determining rates. Eisenman urged the Commission to grant PG&E's petition for modification of D03-12-061.

Summary: On August 10, 2004, Debra Reed, President and Chief Operating Officer for San Diego Gas & Electric Company (SDG&E), met with Cmmr. Brown and Cmmr. Wood in two separate meetings in San Francisco. Also present were Lee Schavrien, Vice President of Regulatory Affairs of SDG&E, and Ted Roth, Managing Director for Roth Capital Partners, a SDG&E customer. Written materials (copies attached to the notice) were used. Reed stated that SDG&E supports Cmmr. Peevey's alternate decision which bifurcates the California Department of Water Resources' (DWR) 2004 supplemental revenue requirement from the permanent allocation issue. Reed further stated that the ALJ's proposed decision inappropriately allocates the 12.5% fairness yardstick to unavoidable costs without recognizing the impact of the Total DWR revenue requirement allocation. Schavrien stated that the Commission should only apply 10% to the unavoidable DWR costs which would result in the 12.5% for total DWR revenue requirement being allocated to SDG&E's customers.

SFPP, L.P., pursuant to Ordering Paragraph 1 of Resolution O-0043 issued October 24, 2002.

Summary: On August 10, 2004, R. Gordon Gooch, outside counsel for BP West Coast Products LLC and ExxonMobil Oil Corporation, met with Cmmr. Wood and Belinda Gatti, advisor to Cmmr. Brown, in two separate meetings in San Francisco. At the meeting with Cmmr. Wood also present was Manuel Ramirez, advisor to Cmmr. Wood, and with Belinda Gatti – staff member Paul Harvey. Written materials (attached to the notice) were used. Gooch stated that contrary to the claims of SFPP, SFPP having no effective competition in its destination markets cannot possibly qualify for any form of deregulation. Questioning maintenance and rate base claims, Gooch stated that SFPP, by its own admission, has enjoyed creamy returns far in excess of the top of the range granted by this Commission, plus sufficient dollars to pay for all maintenance. Gooch pointed out, however, that a concern is that SFPP is not maintaining its pipeline properly, perhaps diverting the dollars earmarked for maintenance. Gooch noted that the representations made by SFPP with respect to depreciated original cost rate base absolutely contradicted the representations made on the same subject by SFPP in its latest application A03-02-027. Gooch argued further that there is no rational basis for excusing SFPP from the legal requirement of 'just and reasonable' cost based rates. Gooch also pointed out that if SFPP seeks some form of automatic rate increases, then this issue has not been raised by SFPP. Gooch urged the Commission to continue its excellent policy of periodic rate review.
